ℹ Born on March 24, 2001   📍 youtube.com/@Code-With-Pi

I am a problem-solver at heart and enjoy finding creative solutions to the everyday challenges we all face. I am also passionate about teaching and programming and find great joy in helping others learn new skills and concepts. When I am not teaching or programming, I enjoy analyzing things and diving into complex problems to uncover new insights and perspectives. As for my hobbies, I love playing badminton, swimming, and cricket to stay active and engaged.
